- \$15.00

We're here to SPARK POSSIBILITY

Our **Young Professionals Network Lead Forward After Hours** is designed for emerging leaders **ages 21–35** who want to build meaningful connections, grow their careers, and engage with the community. This relaxed gathering brings together young professionals from a wide range of industries—including business, trades, and those just starting their career journey—to share ideas, expand their networks, and support one another. Looking ahead, the network will also offer educational opportunities focused on the real challenges young professionals face in the workforce, creating space to learn, grow, and navigate career development together. It's a welcoming place to connect, be inspired, and become part of the next generation shaping our community.
